

Dear Patient,

Your doctor has prescribed a compounded medication to suit your individual needs. This medication needs to be compounded by a specialty pharmacy. For your convenience, your doctor has forwarded your prescription to us to ensure that it is filled and shipped promptly to you.

Central Drugs is a compounding pharmacy that has been in business **over 118 years** and is a member of the Good Neighbors Provider Network, the Professional Compounding Centers of America and the International Academy of Compounding Pharmacists. As we begin to process your prescription, please keep the following in mind:

PROCESSING

We will begin processing your prescription once we receive all of the necessary information from your doctor. You should receive a phone call from us shortly to verify your information and present you with an opportunity to consult with a pharmacist. Please note, the pharmacy will need your **Prescription Insurance** information, which is different from your medical insurance information (doctor and hospital). Prior to our call, if you have any questions about the process or the medication, please contact us toll-free at **(877) 258-3477**.

FREE SHIPPING

Once the medication has been compounded, it will be **Shipped Overnight and Free of Charge** to the address on file with your doctor. Please let us know if you prefer to receive your medication at a different location. It may take up to **3 Business Days** for the pharmacy to process, compound and deliver your medication.

INSTRUCTIONS

Your doctor's specific instructions on how to apply the compounded medications will be included in the shipment that contains your medication. Please refer to those instructions as it is important to apply the topical cream as directed in order to experience its maximum benefits.

We pride ourselves in delivering outstanding customer service. Please call us at (877) 258-3477 if you have any questions.

Sincerely,

Central Rexall Drugs, Inc.
